Profile Summary

- Third-year Electronics and Communication Engineering student specializing in Data Science, with a strong interest in technology and data-driven solutions.
- Proficient in Excel, SQL, Power BI, and foundational AI skills, enabling effective data analysis and visualization.
- Strong collaboration, leadership, and management abilities, ensuring success in team-oriented projects.
- Fluent in English, Malayalam, Hindi and Tamil, with excellent communication and interpersonal skills.

Relevant Coursework

- | | | | |
|------------------------------------|---------------------------|---------------------------------|------------------------|
| • Data Visualization | • Artificial Intelligence | • Data Analysis | • Predictive Modeling |
| • Business Analytics & Forecasting | • Machine Learning | • Data Cleaning & Preprocessing | • SQL for Data Science |

Education

SRM Institute of Science and Technology

Electronics and Communication Engineering with Specialization in Data Science

Sept 2022- May 2026

Kattankulathur, Tamil Nadu

St. Antony's Public School

Aug 2020- May 2022

Kanjriapally, Kerala

Experience

AiVolved Technologies – AI/ML Engineer Intern

Dec 2024

- Worked on developing and implementing machine learning models to solve real-world problems, focusing on data preprocessing, feature engineering, and model evaluation.
- Gained hands-on experience with AI/ML frameworks like YOLO V8, and PyTorch, as well as tools for model deployment.
- Collaborated with the team to deploy AI-based solutions, ensuring high performance and scalability.

HackTheBox SRMIST- Corporate Member

Mar 2024- present

- Focus on securing sponsorships and handling marketing strategies for hackathons and cybersecurity events.
- Collaborated with external sponsors to drive participation and visibility for club events.

Emcee Team – Committee Head

Aug 2023- present

- Lead and mentor a team of emcees to improve their public speaking and leadership skills. Responsible for organizing events and ensuring smooth stage management across various university functions.

Technical Skills

Analytical Tools: Microsoft Power BI, Ms Excel, Tableau

Languages: Python, SQL, C

Technologies/Frameworks- Pandas, NumPy, YOLO-V8, PyTorch, Tensorflow, OpenCV

Certifications / Extracurricular

- | | |
|--|---|
| • Introduction to Data Analytics (IBM) LINK | • Computer organization and architecture (NPTEL) LINK |
| • Investment Banking Job Simulation (J.P.Morgan) LINK | • The Arduino Platform and C programming (University of California) LINK |
